

# ASSOCIATED BANK HSA PLUS INVESTMENT OPTION

Health Savings Accounts are a powerful tool to fund medical expenses in retirement.

Healthcare costs continue to be one of the largest expenses a retiree may face. Health Savings Accounts (HSAs) can help you pay for current and future medical costs and save for retirement at the same time. Associated Bank's HSA Plus offers a fully integrated investment option that may allow your HSA dollars to grow at a faster rate.

## Choosing to Invest

Once your HSA Plus cash account reaches \$1,000, you can put any amount over that threshold into your choice of our low-cost investment options, which are continuously monitored by our in-house Chartered Financial Analysts (CFAs). In addition, HSA Plus is fully integrated into Associated Bank Online and Mobile Banking and offers two-way sweeps, allowing you to easily transfer funds between your investments and cash account.

## Why should I invest?

Investing now means lower taxes and less stress in the future. Because the money you put into an HSA goes in tax-free, it grows and comes out tax-free to pay for eligible medical costs. And by starting today, you give your HSA plenty of time to grow to cover future healthcare expenses.
